조선시대 왕실을 배경으로 펼쳐지는 아름다운 로맨스.

Soon the punishment for Chang-Won will be decided.
The king will make the final decision but -
It would appear that he will be kicked out of the capital which most want.
.....
The royal doctor was going to visit you, brother.

So I was told.
I do agree that it cannot do any good if -
I was also told that you ridiculed him and kicked him out.
Any outsider sees the event and assumes the worst.
Now, that is a rather direct question.
What are you plotting ?

And it almost sounds like you suspect that I am trying to find the king's weakness.
In order to weaken the king's influence.
Do you wish the throne, brother ?

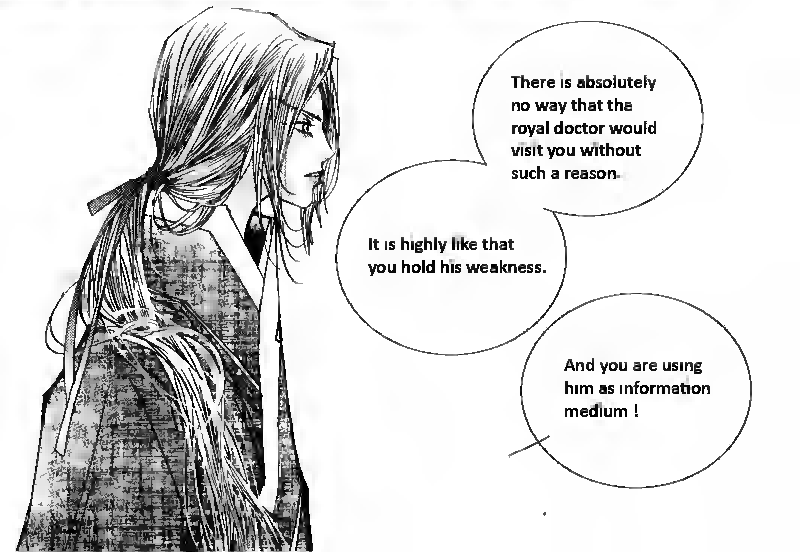
Lee - So young

Hmph, unless you, my brother, would want to turn me into a traitor,
You would not dare making such a bold statement.



There is absolutely no way that the royal doctor would visit you without such a reason.
It is highly like that you hold his weakness.
And you are using him as information medium !

How else should I think about this
When you are virtually the next in line of succession.
And have the royal doctor as your own spy.
How else would anyone think of this ?
Do you really wish to walk on the same path as our grandfather did ?

If ... I ...
am to walk on the same path as our grandfather..., King Seo-Jo,
The first thing I would do in this situation ...

should be slashing you down !

He's such a beauty.
Who are you talking about...
The young noble before...
I understand that stating a noble man a beauty may be an insult,
But he had indeed more natural beauty than most of noble women I've met.
women?

Carefully a at his face a chance.
Try to swing your hand by his head. I am sure you will find his head to be rather small compared to your own hand.
And look at the natural curve from his ear to chin. That is not a man's curve.
And his long and vivid eye lashes... And overall shape of his eyes and its position...
That is not a man's face, sire.

I was told that this was the weapon you used to kill your maid.
Of course, it was proven that it was your maid

The maid was yours and this sword is yours.
And there are witnesses that you used the sword to torture and kill her.
For fuck's sake, just because of some slave's life...
Sire..., you... are not asking me to accept a capital punishment, are you ... ?

The king of this nation.
Uncle, the slave you've murdered was one of my people.
O, of course, sire. Everybody knows that everyone in this nation is -

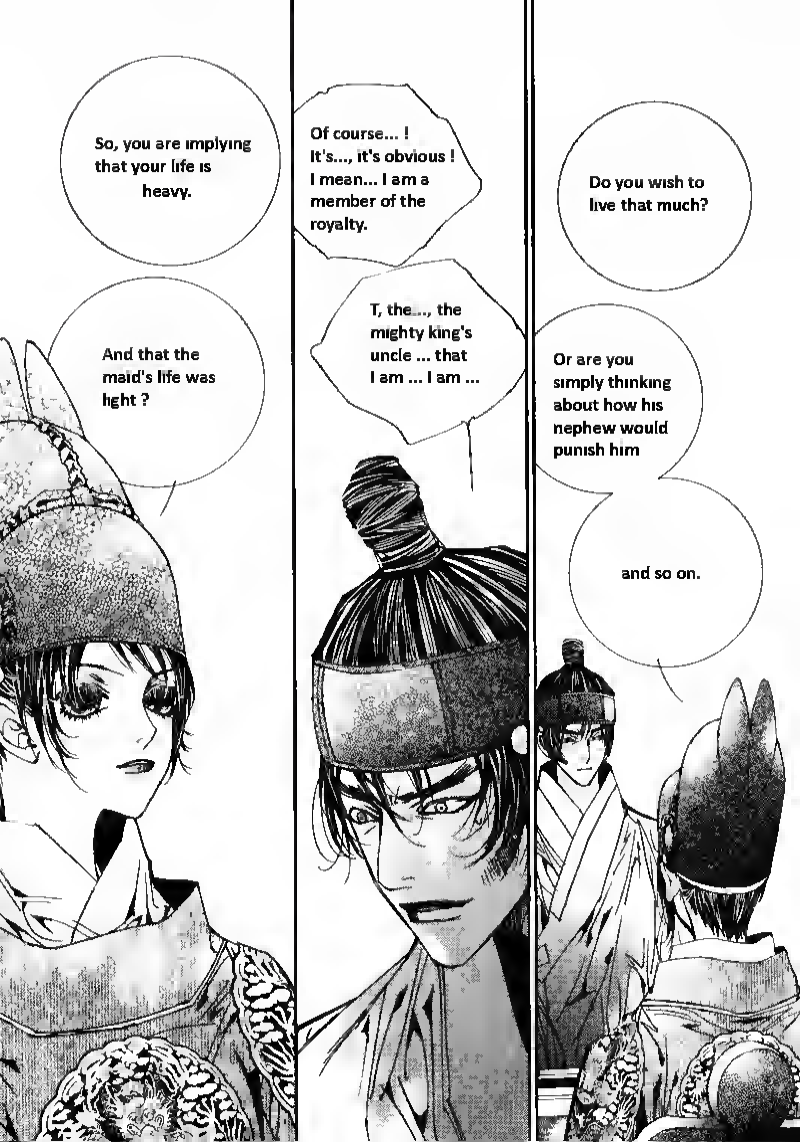
H, however, t, there are ranks. There are ones with higher ranks and lower ranks.
That's an interesting point you bring up.
Yes, nothing and no one is equal.



So, you are implying that your life is heavy.
And that the maid's life was light ?
Of course... ! It's..., it's obvious ! I mean... I am a member of the royalty.

It's two punishments.

The first

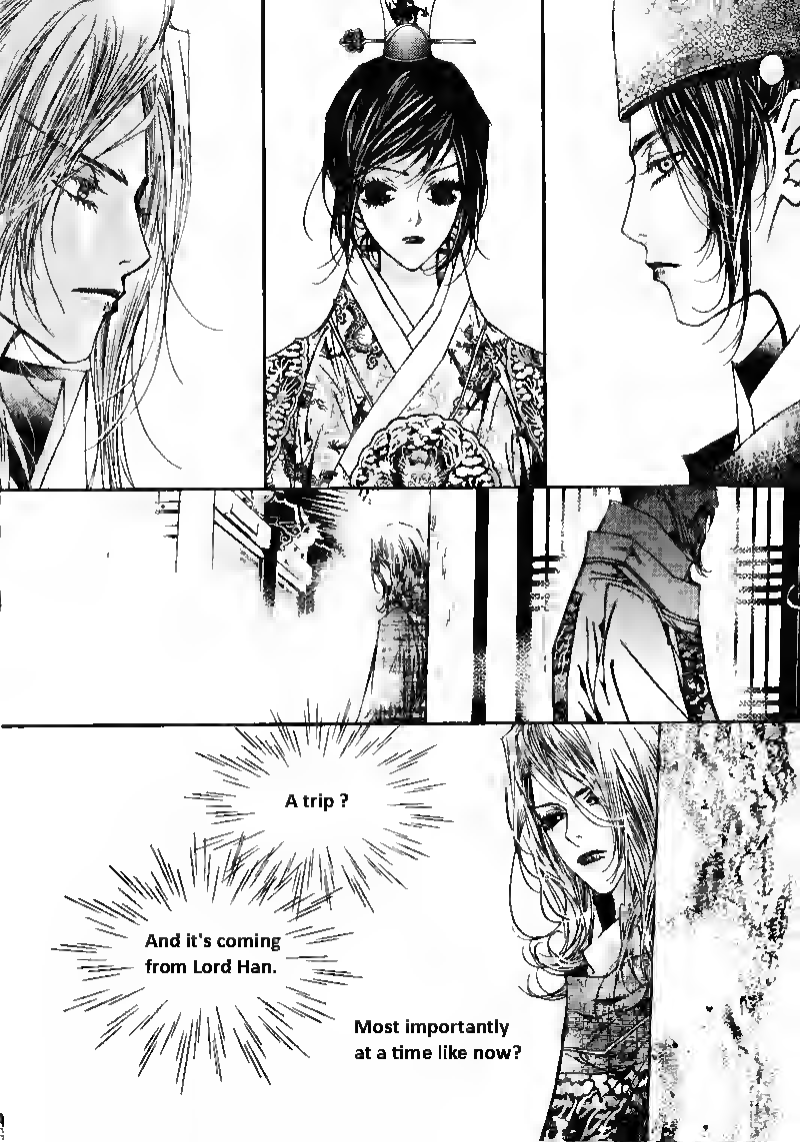
Taking a walk with you always puts my mind at ease.
It is true that my mind was unsettled by the recent event.
If it is so, why don't you go on a trip?

It will be a good opportunity for you to free yourself from your duties and rest your mind.
Therefore, I formally request that you go on a trip.
Please, do not reject my request, for I am doing this for you, sire.

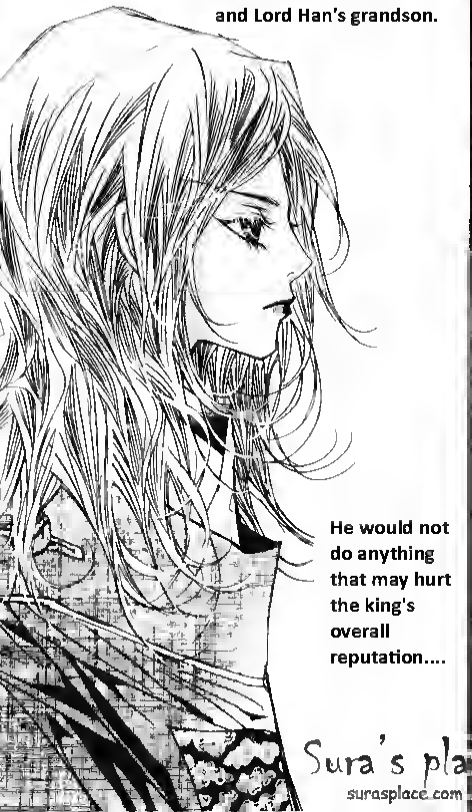


A trip ?
And it's coming from Lord Han.
Most importantly at a time like now?

The whole palace is unsettled due to having the king'd uncle bow on four in front of a slave's grave...

Normally, Lord Han would never propose such a thing like a trip at a time like this.

Granted, the king does not have full control due to age, but still he is the king and Lord Han's grandson.



He would not do anything that may hurt the king's overall reputation....

The intention of this trip would be quite simple to figure out.

Adults will want to clean up the mess a kid has created, so to speak.

Meaning this trip will mean that the king is in fact a puppet and powerless overall.

It had nothing to do with this. I want you to know that.

B, But - !
That does not mean - !
I liked what you did back there ! Know that !
Speaking of which, do you ... like men ?

Let's put aside the fact that I am your liege for a moment.
I am ... a male.
And what you did indicate that you are ...
N, no, sire !
I, I am willing to accept any punishment for what I've done.
But, I am
Are you saying you have feelings for me ?

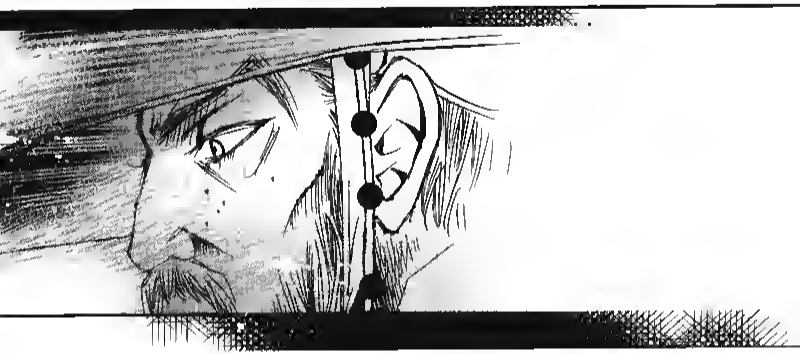
Whether ...
I am ...
A man -
Or a woman -

Do you have feelings for me ...
For who I am regardless my gender ?

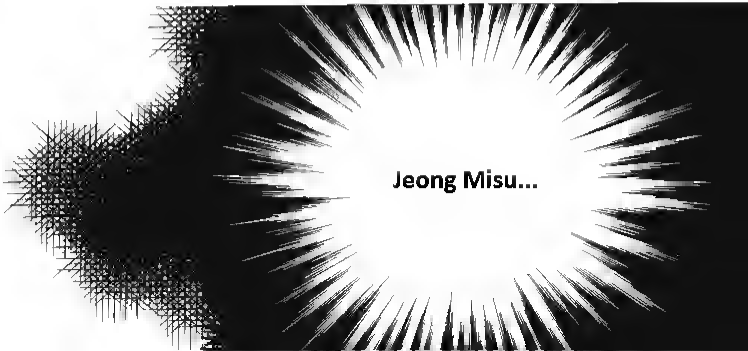
The king...
Chose not to return ?!
That does not make any sense !
Granted, the aim was off, I was told.
However, still he was harmed by the arrow. This palace is the place he should have returned right away !
He is in a very vulnerable situation right now.
There might be real assassins out.

It's only logical for him to come back here where he can be protected.

Even so, he chose not to return here ...



..... ?!!



Is he delaying his return to protect Jeong Misu ?!
If that is so -
There is a good chance that he will even deny that he was even hurt !
The lion is protecting the rabbit!

... I've asked you a question.
Do you -
Have -
Funny and ridiculous ...
Feelings for me ?
What in the world am I doing right now ...

I was harmed by an assassin's arrow a moment ago.

And I ran.

There is a chance that the assassin could still be out there.
In fact, he may be right outside of this hut.

And look what I am doing right now.

I am wanting to know how Misu feels about me.

Funny and ridiculous.

However,

This is me right now.

I did a poor job.
And as a result, you were harmed.
Even if I am to receive a capital punishment for this, I will gladly accept.
Please return to the palace !

Yes, that is a part of the reason.
Right now, this wound of mine is not of my concern.
Protecting my direct vassals is more important.
If I let them die for every single mistake they make,
It will be the same as cutting down my own flesh.
Wounds unless fatal will heal. Dead vassals don't come back.

If I can hide this wound,
If that is possible,
I will do so.
If I can protect those who serve me truly,
is with
so if I to

of dead.

Cannot -
And will not abando-

I cannot and will not abandon you.
Why...
Why !!!

Why are you..
destroying me like this ...

This must stop.
This cannot go further than this but...
But... this is warm...

I can feel his warmth ...
And I can even feel his ...
heartbeat ...
It's... not too
bad ...

... Take off...
Your clothes.
... I need your coat... and shirt.

I cannot return to the palace with my coat and shirt with blood and all.
I was never hit by an arrow.
But that does not mean there wasn't someone who aimed an arrow at me.
